On-Line Verifications : The Future of Professional Licensure

Veronica Reynolds

The Professional and Occupational Licensing Division is responsible for issuing and renewing licenses to over a quarter of a million professionals through its 38 professional and occupational licensing boards. The purpose of this project is to expedite the verification process by permitting licensees to pay the verification fee online by credit card or electronic checks. This would shorten the processing time from 3 - 7 days and would allow boards to transfer the verification document by electronic means.
