I have found that narrative nonfiction allows complex ideas to be presented in a readable and approachable way. I hope you agree. Part 1 of Online Classes That Work! tells the story of Tony Brown, an economics professor who excels at teaching face-to-face in the classroom, yet finds his first venture into the online classroom frustrating and ineffective. Tony experiences every professors worst nightmare when he tries to teach a complicated subject to a group of disengaged students using poorly designed and out-of-date materials. Is there a better way? asks Tony as he sets out to find the secrets to making online courses work. Part 2 describes the learning model-the secrets to effective learning outcomes-and the roles student engagement and learning environment play in achieving measurable learning outcomes. Part 3 takes Tony on a journey where he discovers the secrets to creating content for online classes and the secrets to creating conversation in online classrooms. He also explores the role of technology in the online classroom, the online classroom as a safe environment for experimentation and learning, and the means of assessing outlines in an online environment. Part 3 ends with a discussion of course structures and techniques for the care and feeding of online classes. The story concludes in Parts 4 and 5 as Tony synthesizes his research, discovers the secrets to teaching online, and creates an engaging and effective online course. Welcome to my classroom.
