

Online Education Fraud : The Diary of a Short Seller

Robert MacArthur

Online Education Fraud: The Diary of a Short Seller is a riveting and timely read. It is a well-researched look behind the curtain of 'too big to fail?' for-profit education companies. With its tales of pyramid schemes, private investigators, and incriminating data, Online Education Fraud has the ingredients of a fast-paced thriller, all the more compelling for containing so much information that has never surfaced until now. Online Education Fraud covers the legal and regulatory history of the for-profit colleges and the events that led to the fall of share prices across the sector.
